

Here for families where you need us, when you need us

Our services are provided through home visitation or classes. This means a trained family support professional or nurse can come to your house, or wherever you feel most comfortable, to share information about things like:

- Potty training
- Breastfeeding
- Infant massage
- Goal setting
- Budgeting
- Play groups
- Preparing your child for school
- And more

Support with no strings attached

Through CFRN, families learn skills that help build strong, healthy relationships. They expand their support system and they benefit from a county-wide group that provides education, information, and resources.

High-quality services are available for:

- Pregnant mothers of any age
- Parents, grandparents or guardians with children under five
- Families residing in Pottawattamie or Montgomery Counties at any income or educational level

Our programs are free and voluntary. Support and encouragement are offered without judgement.

Ready to help providers do their best

Through a group review process CFRN is able to determine eligibility and make recommendations for family services based on the most current information available.

We also:

- offer the widest array of service options in Pottawattamie and Montgomery Counties,
- prevent the duplication of services, and
- are responsible stewards of resources.

Names you can trust

The Child and Family Resource Network (CFRN) is a group made up of partners with long-standing relationships and ties within our communities.

Our partners include:

Southwest Iowa Families, Inc.
